### **New EVO<sup>3</sup> Retention Holster Offers The Ultimate In Security and Versatility**

**Overland Park, KS** — The new EVO<sup>3</sup> Triple Retention Holster from Uncle Mike's Law Enforcement represents the latest evolution in versatile and secure duty holsters for lightbearing pistols. Three-way security is provided to ensure that the firearm stays locked in place until it's meant to be drawn. Firearm security is provided by a snug fit along with Uncle Mike's internal locking system that engages the ejection port and a spring-loaded retention hood.

The locking device can be released with the touch of a finger, but it is inaccessible to anyone but the user. The release also flips the retention hood back so there is no time wasted in unsnapping thumb straps. The modular design makes the EVO<sup>3</sup> versatile and easy to convert to a non-lightbearing configuration. It is currently available for the Glock 17 and 22 pistols.

The EVO<sup>3</sup> holsters are available in three finishes — Kodra<sup>®</sup> cloth nylon, MIRAGE<sup>®</sup> plain or basket weave,— over the Xenoy<sup>®</sup> skeleton that provides long lasting strength and rigidity.

Uncle Mike's Law Enforcement products are now part of Bushnell Outdoor Accessories. For more information visit [www.bushnell.com](http://www.bushnell.com).
